Subject: Damaged pallet in delivery SH-2026-006630
Attachments: IMG_4721.jpg

Hello,

Today at 12.40 we received shipment SH-2026-006630 from Kalottfrakt (tracking KA2442844330) for your order SO-2026-006192. It was due on 26 August and came five days late, and the pallet had been hit: one corner of the load is crushed, and the stretch wrap is torn. The driver noted the damage on the delivery note before we signed it. A photo of the pallet as it arrived is attached.

We opened the two damaged cartons. The goods in them cannot be sold:

- 6 x Skarvind Revontuli Daypack 8L Black, crushed and torn
- 4 x Tundra Hyrsky XT Water Filter Graphite, housings cracked

At the order prices, 6 x 76,50 EUR and 4 x 53,90 EUR, this is 674,60 EUR in total. The rest of the pallet is fine.

Please send replacements. The ruska season is starting and these are among our best sellers now, so we need them by Friday 11 September. We keep the damaged goods here until you tell us what to do with them.

Best regards,

Jukka Virtanen
