Hi,

the second pallet from Tuesday's delivery arrived damaged. The outer wrap was torn and the cartons at the bottom were crushed, looks like something heavy was stacked on it in the truck. The tents are the worst (Skarvind Kaamos Lite Tent 4P Midnight Blue), I count at least 6 boxes that we can't sell,
the rest of the pallet looks ok from the outside but we haven't opened everything yet.

We need replacements before Friday, we have the autumn campaign starting Saturday and these are
in the ad. If you can't get all of them here by then please send what you have and credit the rest.

Photo attached. The driver saw it and wrote it on the paper, I can send that too if you need it.

Terveisin,
Elina Järvinen
