Subject: FW: Ski order for season opening - 7 days late, credit request

Hello,

I am writing about our ski order for the season opening in Kiruna (your order SO-2026-007368). You promised delivery on 2026-08-24 and it arrived on 2026-08-31, that is 7 days late.
We had the opening on 2026-08-27 with an empty ski wall after advertising the touring skis in the local paper. Our store manager Erik Andersson had to drive to Luleå to borrow stock from another store, 700 km round trip.

Baltic Freight Line told us the pallets were standing in Örebro for three days. That is between you and them.

We want a 10% credit on the whole order, or we will have to review our winter pre-orders with you.
You can reach me directly on my personal mobile +46 70 079 09 87 - I am on holiday this week but I will answer. Please don't call the store about this.

Regards,
Gustav Strand
