**Subject:** short delivery Umeå store

Hej,

we got the delivery to our Umeå store last Friday but part of it is missing. We ordered 8 cartons of
the Ruska Nordic 2.0 Hiking Boot EU 46 Petrol (48 pairs) and there were only 5 cartons on the pallet, 30 pairs. The socks and
the trekking poles were all there. The packing list says 8 cartons so they were never loaded or they
fell off somewhere.

I dont have the order number here, it was our normal EDI order from the week before. Can you send the
missing 3 cartons asap or credit us if they are out of stock, we have customers waiting for the 46s.

Thanks
Sofia Johansson
